

Bridges Workplace Connection

The Bridges Workplace Connection is a link between education and business providing structure for outcome-based, work-based learning experiences.

Interact with students from Brainerd, Crosby-Ironton, Staples-Motley, Pillager, and Pequot Lakes school districts and Central Lakes College (CLC).

Research confirms that a workplace connection creates relevance, guides career and educational goals, and connects regional employers with graduates.

Bridges Workplace Connection will:

- Increase career education for students
- Expand education and training beyond the classroom
- Educate parents and the community about career opportunities

Bridges Career Academy and Workplace Connection is funded in part by the following organizations: Blandin Foundation, Initiative Foundation, Central Lakes Tech Prep, and Crow Wing Power.
